

### Learning and Life Skills

Think! Think! Think!

- Considering different learning styles and tools and what works for us as individuals.

### Design and Technology

- Make a water shaker.

### P.E

Please send your child into school in their weather appropriate P.E. kit on **Mondays and Thursdays**.

- Athletics
- Multi-skills

### PSHE - Theme: Citizenship

- Rules.
- Caring for others: Animals.

### Religious Education

- Christianity and Judaism
- Jesus the Miracle worker - The Ten Lepers

### Ways that you can help your child

- Please hear your child read as much as possible and read to them too!
- Encourage your child to complete homework activities.
- Practise spellings and wordlists and encourage your child to be using these in their independent reading and writing.
- Discuss mathematics as part of everyday discussions and tasks.
- Encourage your child to use Oxford Owl.

### English

- Dr John Snow - fact file
- Reading the story of The Rainbow Fish and answering questions to develop our comprehension skills.
- Instructions for how to plant a seed.
- Writing the diary of a seed.

## Wonderful Water

Year 1 Summer 1 2023

### Why is water precious?

Stunning Start: Trip to Wakehurst Place  
Fabulous Finish: Creating water shakers using natural materials

### Science

- Parts of the plant (and their uses)
- Planting seeds to observe the stages of growth using a 'bean diary'
- Life Cycles

### Mathematics

- Counting in 2s, 5s and 10s to 100
- Doubling and halving numbers to 20
- Number and Place Value
- Finding halves and quarters of objects and amounts (Fractions)

### Computing

- Coding - algorithms and debugging.

### Important dates

- Tuesday 18<sup>th</sup> April - Wakehurst Place trip
- Find out Fridays TBC. Please look out for an email.

### History and Geography

#### History

- Supplying water to the home.
- Significant individuals - Dr John Snow.

#### Geography

- Locating water around the world.
- Revisiting continents and oceans.
